Plant Nutrients **CERTIFIED**

ONE AP 30-0-10 WITH CAVALCADE 100%(eN) 100%K-COTE

- Specially designed to be applied once in the Spring for season long feeding and preemergence weed control
- Balanced release formula for the northern growing zone with specialized efficiency nutrient, (eN)60, (eN)120 and (eN)180 and K-COTE.
- Additionally contains (eN)Gevity delivering the season long assurance to last seven, eight and even nine months if needed.
- Contains Cavalcade, a long residual preemergence weed control without the staining issues
- (eN) efficiency nutrients contain a unique membrane that selectively allows soil moisture to diffuse through the coating, gradually dissolving the urea fertilizer
- In addition to many efficiency characteristics also reduces labor by more than 50% making it one of the most economical application and a great fit for efficiency nutrient management (eNM) programs.
- Environmentally Friendly, reduces yearly nitrogen use up to 50% & nearly eliminates nitrogen run-off and leaching, meeting standards for "ECO Choice Plant Nutrient" Certification.
